New and Better DAFFODILS of Unsurpassed Loveliness

Daffodils are among the earliest spring-flowering bulbs and as such are most welcome. Their gay yellow and white, and cream and orange blooms seem to be the very essence of the new season. It is well to plant them where they will have shrubs or evergreens as a background. Smaller kinds are very effective in the rock garden, and for a superb spring picture there is nothing to surpass a large planting of naturalized Daffodils.

Fragrant HYACINTHS

The popular Dutch Hyacinths with their rich fragrance fill an important place in the early spring garden. As formal bedding plants they have few equals. They also provide desirable and striking color masses in the foreground of shrub borders as well as in the perennial garden—in fact, wherever an early spot of color is desired. Plant them informally in drifts and they will scent the spring garden as no other plant can do.

The following 12 varieties are the finest obtainable in their color classes. The size we are offering for outdoor planting is 15 to 16 cm., which is ideal for the average garden.

Any of the following, 6 for \$1.50; 12 for \$2.75; 25 for \$5.00; \$18.50 per 100

CITY OF HAARLEM. Well-formed trusses of pale yellow bells.

GRAND MAITRE. Deep lavender. Long, compact spikes of large bells on strong stems.

PERLE BRILLIANT. Light blue, tinged lavender. Splendid spikes of large, substantial bells.

PINK PEARL. Vivid rose with strong curled bells. Large spike; strong stem. Excellent for early forcing.

PRINCESS MARGARET. A very fine novelty. The clear soft pink flower is large and perfectly formed. One of the best pinks in both size and color.

QUEEN OF THE BLUES. Light porcelain-blue; large, well-formed trusses.

QUEEN OF THE PINKS. Trusses broad and large, with good-sized pink bells and strong stems.
